

Understanding Safety Management Systems (SMS)

This is an opportunity to become familiar with the requirements for designing and implementing a Safety Management System (SMS) across the entire Aviation Industry. In this session we will present the basic concepts of SMS as well as the latest developments including rulemaking, publications and best practices for Industry.

Directions: For details about the location, please go to www.lq.com and select La Quinta Inn & Suites Denver Tech Center

A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
